OPTiMO

Past Performance

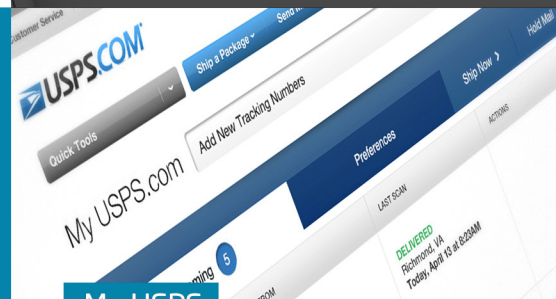

USPS Digital Design Services

The United States Postal Service required digital design services to meet the evolving needs of their customers. OPTIMO was awarded this contract as a prime vendor to provide design, user experience, and creative services for a range of digital products including the USPS.com website and USPS mobile applications.

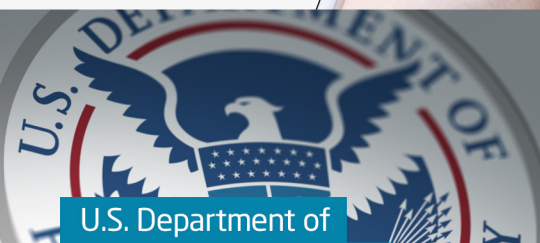

Informed Delivery

OPTIMO worked with USPS to design and develop a new digital mail experience that integrated seamlessly with their existing technology infrastructure. The end result was a platform that allowed customers to view photos of their incoming mail through email, online or from a smartphone. We also developed a business-facing administration panel for managing mail campaigns.

My USPS

OPTIMO developed the My USPS mobile app and user portal which implemented numerous new features providing an enhanced digital experience for tracking & managing packages.

U.S. Department of Homeland Security ICE

As a prime contractor, OPTIMO provides Financial Data Analytics, Business Process Review, Independent Verification/Validation and Report Automation.

SafeTKuvrr

OPTIMO is the exclusive Federal Government provider of SafetyKuvrr, a next generation mobile security platform with comprehensive 24/7 security monitoring using streaming video, audio, live GPS location, and 2-way chat with a designated Central Command Center. Useful for field law enforcement personnel, agency personnel, organizational emergency notifications, and anywhere real-time comprehensive 24/7 monitoring is needed.
